

## FLYING RATES with effect from July 2008

Please note that rates have been increased to reflect a 20% increase in the cost of Avgas and a 7% increase in other costs since the last review in August 2006. This translates into a 12% overall increase in the cost of a flying hour. However as a result of increased efficiency and better utilisation of aircraft the increases have been generally capped at below 8% before GST.

### PA28 Warrior / Archer

	<u>Excluding GST</u>	<u>Including GST</u>
